

As a resident of Grays Harbor County we have a limited selection of programming. In our rural area Airl is one of only two Christian based programming options and the only one targeting all ages. We as a family listen to Airl 3-8 hours daily as we don't watch much television and enjoy the content we receive from Airl. The community in general is in need of programming options that enlighten and have a positive influence on the citizens of Grays Harbor County. With music choices limited to country and western, hard rock, and urban, our youth may not ever hear lyrics that talk about positive aspects of life. I want to make sure my teenagers hear the words, love, freedom, and happiness in the lyrics of the music they listen to rather than hearing women called demeaning names, positive reinforcement of drug use, swearing, or " I just cheated on my wife, she cheated on me" type of lyrics and casino commercials. We need Airl to be able to continue to bring appropriate programming to our area. The absence of Airl from our local airwaves would have a lasting negative effect on my family and my community. Please don't allow any action that would jeopardize our receiving Airl.

Very Sincerely,

Patricia Brenenstahl, RN, Mother of Teenagers, Community Activist
